

AUDIO

SUBJECT INDEX

1956

AMPLIFIERS

Conference amplifier for the hard-of-hearing business executive; Robert M. Mitchell. **Nov. 46.**
 Audio design chart—amplifier or loudspeaker impedance. **Nov. 22.**
 Experiment III—the Beta-Tron; Stan White. **May 28.**
 Interaction concept in feedback design; Norman H. Crowhurst. **Oct. 38; Nov. 32.**
 Preamplifiers and amplifiers—Sound, Chap. 6; Edgar M. Villichur. **Mar. 36.**
 Amplifiers, power—Sound, Chap. 8; Edgar M. Villichur. **Apr. 40.**
 Stabilizing transistor amplifiers; Richard H. Small. **Dec. 47.**

AMPLIFIERS, PRE-

Compensation for amplitude responsive phono pickups; R. H. Brown. **Nov. 26.**
 High-quality dual-channel amplifier; Charles W. Harrison. **Jan. 13.**
 Preamplifiers and amplifiers—Sound, Chap. 6; Edgar M. Villichur. **Mar. 36.**
 Transistor preamps; H. F. Starke. **Apr. 31.**

AT HOME WITH AUDIO, Lewis C. Stone
Mar. 20; May 24; June 24.

ATTENUATORS

Care of audio attenuators; Eugene F. Corleil. **May 44.**

BRIGGS' CONCERT—1956; C. G. McProud.
Nov. 54.

BROADCASTING STUDIOS

A sound effects console for UN studios; D. D. Jones. **Sept. 26.**
 Special audio console meets WSB-TV needs; Bert Ennis. **Sept. 24.**

COMMERCIAL SUPPRESSOR

Time delay; Ronald L. Ives. **Nov. 24.**

CROSSOVER NETWORKS

A survey of crossover networks; Richard C. Hitchcock. **Nov. 28.**
 Interference effects with loudspeaker crossover networks; Charles P. Boeghl. **Nov. 15.**

DESIGN CHART

Amplifier or loudspeaker impedance. **Nov. 22.**

DISTORTION

In tape recording; Herman Burstein and Henry Pollak. **Oct. 30.**

ENCLOSURES

A folded horn design; Richard A. Greiner. **Dec. 40.**
 A semicircular exponential horn; Reuben M. Cares. **Oct. 26.**
 Baffles unbaffled; Edward J. Jordan. **Aug. 15; Sept. 34.**
 Concrete for loudspeaker enclosures; Phil J. Walusek. **Dec. 25.**
 Ported loudspeaker cabinets; James Moir. **Oct. 23.**
 Report on friction loading; C. G. McProud. **June 38; July 26.**
 Semi-solid corner enclosure; H. P. Foerster. **Dec. 39.**

Speaker enclosures—Sound, Chap. 10; Edgar M. Villichur. **June 34; Aug. 23.**

EQUALIZATION

Compression and dialog equalization in motion picture sound recording; Edward P. Ancona. **June 17.**

FEEDBACK

Feedback tone-control circuit; Hamilton Barhydt. **Aug. 18.**
 Interaction concept in feedback design; Norman H. Crowhurst. **Oct. 38; Nov. 32.**
 Simplitronics—Feedback; Harold Reed. **Apr. 29.**

FILTERS

Graphical solution of electrical filters; L. U. Hanvas. **Dec. 22.**

HIGH FIDELITY SYSTEM

A professional Hi-Fi home music system; Oliver Berliner. **Apr. 23.**

HUM

Design considerations for hum reduction; Oliver Berliner. **Nov. 38.**

LAW

Contracts against competitive employment; Albert W. Gray. **Oct. 44.**
 Features of patent-licensing agreements; Albert W. Gray. **Dec. 48.**
 How long is "permanent" employment? Albert W. Gray. **Jan. 20.**
 Loss of patent by delayed application, Albert W. Gray. **Nov. 23.**

LISTENING ROOMS

Sound—Room environment; Edgar M. Villichur. **July 22.**

LOUDSPEAKERS

A semicircular exponential horn; Reuben M. Cares. **Oct. 26.**
 Audio design chart; Amplifier or loudspeaker impedance. **Nov. 22.**
 Baffles unbaffled; Edward J. Jordan. **Aug. 15; Sept. 34.**
 Diffaxial speaker; Abraham B. Cohen. **June 20.**
 Experiment III—the Beta-Tron; Stan White. **May 28.**
 Future of loudspeaker design; Norman H. Crowhurst. **Dec. 19.**
 Improved circuit for electrostatic tweeters; Charles E. Cohn. **Oct. 36.**
 Interference effects with loudspeaker crossover networks; Charles P. Boeghl. **Nov. 15.**
 Ported loudspeaker cabinets; James Moir. **Oct. 23.**
 Report on friction loading; C. G. McProud. **June 38; July 26.**
 Sound—Loudspeakers; Edgar M. Villichur. **May 46.**
 What makes a woofer? Saul J. White. **May 30.**

MICROPHONES

Stereophonic microphone placement; James Cunningham and Robert O. Jordan. **Nov. 43.**

MUSIC

An experiment in true-fidelity organ reproduction; Julian D. Hirsch. **Apr. 26.**
 Artistic integrity of the record; Otto Meyer-Serra. **Mar. 20.**

MUSICAL INSTRUMENTS

The Conn electronic organ; Richard H. Dorf. **Sept. 28; Oct. 48.**
 The Schober electronic organ; Richard H. Dorf. **Jan. 20; Feb. 23.**

PHONOGRAPH EQUIPMENT

A new turntable design; Rubin Carlson. **Feb. 20.**

PHONOGRAPH PICKUPS

Compensation for amplitude responsive phono pickups; R. H. Brown. **Nov. 26.**
 Pickups, tone arms, and needles—Sound, Chap. 5; Edgar M. Villichur. **Feb. 40.**
 Compensation for amplitude responsive phono pickups; R. H. Brown. **Nov. 26.**

PHONOGRAPH RECORDS

Artistic integrity of the record; Otto Meyer-Serra. **Mar. 20.**
 Record speed and playing time; Charles P. Boeghl. **Sept. 19.**

PSYCHOACOUSTICS

An experiment in true-fidelity organ reproduction; Julian D. Hirsch. **Apr. 26.**
 How loud is silence? Charles E. White. **Mar. 17.**
 Noise—enemy of normal hearing; Charles E. White. **Nov. 18.**
 Room environment—Sound, Chap. 12; Edgar M. Villichur. **July 22.**

RECORDING, Disc

Disc recording—Sound, Chap. 4; Edgar M. Villichur. **Jan. 17.**

RECORDERS, Tape

Tape recorder section; C. G. McProud. **Feb. 27.**

RECORDING, Equalization

Compression and dialog equalization in motion picture sound recording; Edward P. Ancona. **June 17.**

RECORDING, Tape

Distortion in tape recording; Herman Burstein and Henry C. Pollak. **Oct. 30.**
 Multiple tape copying; R. E. Baird. **Dec. 36.**

STEREOPHONIC

Stereophonic microphone placement; James Cunningham and Robert O. Jordan. **Nov. 43.**

SYSTEMS

A professional Hi-Fi home music system; Oliver Berliner. **Apr. 23.**
 College music room design; Merle Fleming and Elliott D. Full. **Dec. 28.**

TONE CONTROLS

A versatile bass-treble tone control; Charles T. Morrow. **Sept. 17.**
 Feedback tone-control circuit; Hamilton Barhydt. **Aug. 18.**

 Sound—Loudspeakers; Edgar M. Villichur. **May 46.**
 What makes a woofer? Saul J. White. **May 30.**

MICROPHONES

Stereophonic microphone placement; James Cunningham and Robert O. Jordan. **Nov. 43.**

MUSIC

An experiment in true-fidelity organ reproduction; Julian D. Hirsch. **Apr. 26.**
 Artistic integrity of the record; Otto Meyer-Serra. **Mar. 20.**

MUSICAL INSTRUMENTS

The Conn electronic organ; Richard H. Dorf. **Sept. 28; Oct. 48.**
 The Schober electronic organ; Richard H. Dorf. **Jan. 20; Feb. 23.**

PHONOGRAPH EQUIPMENT

A new turntable design; Rubin Carlson. **Feb. 20.**

PHONOGRAPH PICKUPS

Compensation for amplitude responsive phono pickups; R. H. Brown. **Nov. 26.**
 Pickups, tone arms, and needles—Sound, Chap. 5; Edgar M. Villichur. **Feb. 40.**
 Compensation for amplitude responsive phono pickups; R. H. Brown. **Nov. 26.**

PHONOGRAPH RECORDS

Artistic integrity of the record; Otto Meyer-Serra. **Mar. 20.**
 Record speed and playing time; Charles P. Boeghl. **Sept. 19.**

PSYCHOACOUSTICS

An experiment in true-fidelity organ reproduction; Julian D. Hirsch. **Apr. 26.**
 How loud is silence? Charles E. White. **Mar. 17.**
 Noise—enemy of normal hearing; Charles E. White. **Nov. 18.**
 Room environment—Sound, Chap. 12; Edgar M. Villichur. **July 22.**

RECORDING, Disc

Disc recording—Sound, Chap. 4; Edgar M. Villichur. **Jan. 17.**

RECORDERS, Tape

Tape recorder section; C. G. McProud. **Feb. 27.**

RECORDING, Equalization

Compression and dialog equalization in motion picture sound recording; Edward P. Ancona. **June 17.**

RECORDING, Tape

Distortion in tape recording; Herman Burstein and Henry C. Pollak. **Oct. 30.**
 Multiple tape copying; R. E. Baird. **Dec. 36.**

STEREOPHONIC

Stereophonic microphone placement; James Cunningham and Robert O. Jordan. **Nov. 43.**

SYSTEMS

A professional Hi-Fi home music system; Oliver Berliner. **Apr. 23.**
 College music room design; Merle Fleming and Elliott D. Full. **Dec. 28.**

TONE CONTROLS

A versatile bass-treble tone control; Charles T. Morrow. **Sept. 17.**
 Feedback tone-control circuit; Hamilton Barhydt. **Aug. 18.**

TRANSFORMERS

Audio transformers can be good; Norman H. Crowhurst, **May 22**.
Input transformer design; Norman H. Crowhurst, **June 27; July 17**.
Output transformer design; Norman H. Crowhurst, **Sept. 20**.
Transformer design considerations for zero-impedance stages; N. R. Grossner, **Mar. 27**.

TRANSISTORS

Simplitrronics—Understanding the r's in transistors; Harold Reed, **Aug. 21**.
Stabilizing transistor amplifiers; Richard H. Small, **Dec. 47**.
Transistor action; Paul Penfield, **Oct. 15**.
Transistorized AM tuner conversion; Edwin Bohr, **July 15**.
Transistor bias stabilization; Paul Penfield, **May 34; July 20**.

Transistor preamps; H. F. Starke, **Apr. 31**.
Transistor tips and techniques; Paul Penfield, **Feb. 17**.

TUNERS

Increasing sensitivity and lowering distortion in FM tuners; Joseph Marshall, **Dec. 30**.
Transistorized AM tuner conversion; Edwin Bohr, **July 15**.

AUDIO

AUTHOR INDEX

1956

Ancona, Edward P. Jr.

Compression and sound equalization in motion picture sound recording; **June 17**.

Baird, R. E.

Multiple tape copying; **Dec. 36**.

Barhydt, Hamilton

Feedback tone-control circuit; **Aug. 18**.

Berliner, Oliver

A professional hi-fi home music system; **Apr. 25**.
Design considerations for hum reduction; **Nov. 38**.

Boegli, Charles P.

Interference effects with loudspeaker crossover networks; **Nov. 15**.
Record speed and playing time; **Sept. 19**.

Bohr, Edwin

Transistorized AM tuner conversion; **July 15**.

Brown, R. H.

Amplitude responsive phono pickups; **Nov. 26**.

Burstein, Herman and Henry Pollak

Distortion in tape recording; **Oct. 30**.

Cares, Reuben M.

A semicircular exponential horn; **Oct. 26**.

Carlson, Rubin

A new turntable design; **Feb. 20**.

Cohen, Abraham B.

The Diffaxial speaker; **June 20**.

Cohn, Charles E.

Improved circuit for electrostatic tweeters; **Oct. 36**.

Coriell, Eugene F.

Care of audio attenuators; **May 44**.

Crowhurst, Norman H.

Audio transformers can be good; **May 22**.
Future of loudspeaker design **Dec. 19**.
Input transformer design; **June 27; July 17**.
The interaction concept in feedback design; **Oct. 38; Nov. 32**.

Cunningham, James, and Robert O. Jordan

Microphone placement; **Nov. 43**.

Dorf, Richard H.

The Conn electronic organ; **Sept. 28; Oct. 48**.
The Schober electronic organ; **Jan. 20; Feb. 23**.

Ennis, Bert

Special audio console meets WSB-TV needs; **Sept. 24**.

Fleming, Merle, and Elliott D. Full

College music room design; **Dec. 28**.

Full, Elliott D., and Merle Fleming

College music room design; **Dec. 28**.

Foerster, H. P.

Semi-solid corner enclosure; **Dec. 39**.

Gray, Albert W.

Contracts against competitive employment; **Oct. 44**.
Features of patent-licensing agreements; **Dec. 48**.
How long is "permanent" employment? **Jan. 26**.
Loss of patent by delayed application; **Nov. 23**.

Greiner, Richard A.

A folded horn design; **Dec. 40**.

Grossner, N. R.

Transformer design considerations for zero-impedance stages; **Mar. 27**.

Hamvas, L. U.

Graphical solution of electrical filters; **Dec. 22**.

Harrison, Charles W.

High-quality dual channel amplifier; **Jan. 13**.

Hirsch, Julian D.

True-fidelity organ reproduction; **Apr. 26**.

Hitchcock, Richard C.

A survey of crossover networks; **Nov. 28**.

Ives, Ronald L.

A time-delay commercial suppressor; **Nov. 24**.

Jones, D. D.

A sound effects console for UN studios; **Sept. 26**.

Jordan, Edward J.

Baffles unbaffled; **Aug. 15; Sept. 34**.

Jordan, Robert O., and James Cunningham

Microphone placement; **Nov. 43**.

Marshall, Joseph

Increasing sensitivity and lowering distortion in FM tuners; **Dec. 30**.

McProud, C. G.

Briggs concert—1956; **Nov. 54**.
Report on friction loading; **June 38; July 26**.
Tape recorder section; **Feb. 27**.

Mitchell, Robert M.

A conference amplifier for the hard-of-hearing business executive; **Nov. 46**.

Moir, James

Ported loudspeaker cabinets; **Oct. 23**.

Morrow, Charles T.

A versatile bass-treble tone control; **Sept. 17**.

Penfield, Paul

Transistor action; **Oct. 15**.
Transistor bias stabilization; **May 34; July 20**.
Transistor tips and techniques; **Feb. 17**.

Pollak, Henry and Herman Burstein

Distortion in tape recording; **Oct. 30**.

Reed, Harold

Simplitrronics—Feedback; **Apr. 29**.
Simplitrronics—Understanding the r's in transistors; **Aug. 21**.

Richardson, Harrie K.

N. Y. High Fidelity Show preview; **Sept. 46**.

Small, Richard H.

Stabilizing transistor amplifiers; **Dec. 47**.

Starke, H. F.

Transistor preamps; **Apr. 31**.

Stone, Lewis C.

At home with Audio; **Mar. 20; May 24; June 24**.

Villehur, Edgar M.

Sound; Chap. 4—Disc recording, **Jan. 17**; Chap. 5—Pickups, tone arms, and needles, **Feb. 40**; Chap. 6—Preamplifiers and control units, **Mar. 26**; Chap. 8—Power amplifiers, **Apr. 49**; Chap. 9—Loudspeakers, **May 46**; Chap. 10—Speaker enclosures, **June 34, Aug. 22**; Chap. 12—Room environment, **July 22**.

Walusek, Phil J.

Concrete for loudspeaker enclosures; **Dec. 23**.

White, Charles E.

How loud is silence? **Mar. 17**.
Noise—enemy of normal hearing; **Nov. 18**.

White, Saul J.

What makes a woofer? **May 30**.

White, Stan

Experiment III—the Beta-Tron; **May 28**.
